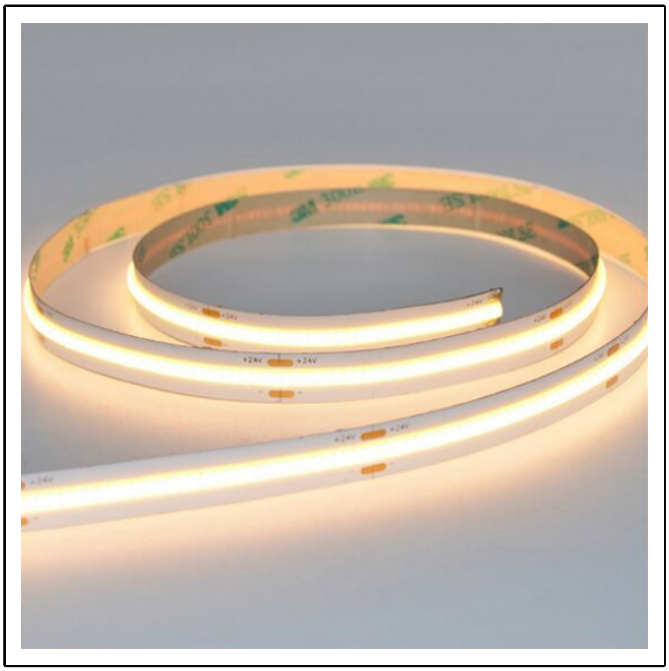
Tapelight CCT (CoB)



Tapelight CCT (CoB)

D21CTCB

Product Overview

Flexible and easy-to-install, our CoB CCT Tapelight provides smooth lighting with no individually visible diodes for a clean, illuminated look that fits all sorts of architectural installs!

Unlike standard (SMD) LED strips which feature individually-spaced diodes, Chip-on-Board (CoB) strips pack multiple LEDs together under a continuous phosphor layer for a neon-like effect with no visible dots.

Supports the full CCT range (Correlated Colour Temperature), allowing users to switch between warm and cool whites.

c UL US

Additional Info

Voltage	12V
CCT	2700k / 3000K / 4000K / 6000K
LED Quantity	612 LED per M
Cut Length	Every 50mm
IP Rating	IP20
Accessories	Corners / End Connectors
